DUTIES AND RESPONSIBILITIES:

Leadership:

- Supervise the drilling and well operation in accordance with Odfjell’s vision and values.
- Maintain good working relations between the drill crew and all other personnel onboard.
- Know your Driller.
- Ensure that all are familiar with the operational plans and own tasks.
- Take necessary action against unacceptable behaviour.
- Monitor relations between the drill crew members and other personnel.
- Assign tasks to the Driller.
- Correct unacceptable behaviour.

Competence:

- Perform/ensure on the job training.
- Be in accordance with competence requirements at all times.
- Know status on your crew members vs. competence assurance system.
- Ensure acceptable level of crew competence and act when insufficient.
- Decide correct tempo on the operation based on crew competence.

Operations:

- Hands on supervision of the drilling and well operation.
- Supply written instructions (DDIs) to the Driller as required.
- Ensure that checklists are ticked off and preparations are made in due time.
- Verify quality of pipe tally, calculations, trip sheets and other paperwork required for well operations.
- Organize and follow up the first line maintenance system for drilling equipment.
- Relieve the Driller as required.
- Prepare daily drilling report.
- Ensure that the drilling equipment is operated in a proper manner within its capacity limits and at the correct tempo.
- Ensure good communication between all involved in the ongoing operation.
- Ensure that the drill crew are trained, and the equipment is set up to handle emergency situations (e.g., well control, loss of position, heavy weather).
- Ensure correct performance and reporting of jobs done in the First Line Maintenance system for drilling equipment.
- Instruct the Driller.
- Emergency duties according to the unit’s emergency organization.
- Perform other duties as assigned.
