

## Rig Manager – Onshore/Offshore Position

Stena Drilling is delighted to be commencing operations offshore Newfoundland and Labrador, Canada for an anticipated six (6) month drilling campaign onboard the Stena DrillMAX Drillship.

There are currently temporary opportunities for 2 Rig Managers, working a 29/27 on/off rotation.

Business Address: 701-10 Fort William Place, St. John's, NL, A1C 1K4

Work Location: The primary work location for the Rig Manager is the same as the business address, however, there will be times when offshore travel to the drillship is required. *Please note there is a possibility that successful candidates will be required to join the drillship overseas at an international location prior to mobilizing to NL.*

Wage: \$163.62 CAD per hour

Benefits: Dental, Life, Medical, Vision, and where applicable, Offshore Allowance.

### **Job Duties:**

- The Rig Manager is responsible for the day to day operations of the unit. Acts as the formal single point of contact with the Client and is responsible for the liaison and negotiations with the Client on all matters operational.
- Ensure that the unit fulfils all authority, client and company requirements with regards to the technical standard of the unit its equipment and certification.
- Responsible for the operational management of their assigned unit in accordance with the policies of the Company.
- Responsible for the performance of the drilling unit on behalf of the Client.
- Maintain Client Relationships.
- Ensure that the operation of the unit is planned and organised in accordance with established procedures, and that the necessary resources are available.
- Plan and control all financial aspects of the operation within the budget.
- Ensure that compliance with requirements relating to safety, quality and profitability is achieved.
- Review ORA's ensuring they have appropriate and sufficient mitigations.
- Develop and deliver Management Objectives, measurable on a quarterly basis.
- Develop and convey Rig Objectives, jointly with the client where required, to offshore personnel.
- Review Pre-sight data on a daily basis and promptly address overdue or failed target items.
- Supervise all project interfaces within other parts of the Company.
- Ensure that all personnel on board the unit are adequately trained and experienced to perform the tasks they are assigned.
- Ensure that subcontractor evaluation, selection and management is done in accordance with established procedures.
- Any other duties, as requested by the Operations Manager.
- Demonstrate commitment to the Company's safety policies through leadership and guidance.
- Must be fully committed to preventing damage to the Environment and shall work in accordance with Stena Drilling's Health, Safety & Environmental Policies and Procedures.
